Any revenue bonds issued pursuant to this Section also may be secured by a trust agreement by and between the authority and one or more corporate trustees or fiscal agents, which may be any trust company or bank having the powers of a trust company within or without this state. Any resolution authorizing the issuance of revenue bonds shall be published one time in the official journal of the state; however, it shall not be necessary to publish any exhibits to the resolution if the same are available for public inspection and this fact is stated in the publication. For thirty days after the date of publication, any person in interest may contest the legality of the resolution, any provision of the revenue bonds to be issued pursuant to it, the provisions therein made for the security and payment of the revenue bonds, and the validity of all other provisions and proceedings relating to the authorization and issuance of the bonds. After that time, no person may contest the regularity, formality, legality, or effectiveness of the resolution, any provisions of the revenue bonds to be issued pursuant to it, the provisions for the security and payment of the revenue bonds, and the validity of all other provisions and proceedings relating to their authorization and issuance, for any cause whatsoever. Thereafter, it shall be conclusively presumed that the revenue bonds are legal and that every legal requirement for the issuance of the revenue bonds has been complied with. No court shall have authority to inquire into any of these matters after the thirty days.

(4) Bond instrument; contents. The resolution or trust agreement shall authorize the development, acquisition, construction, extension, improvement, maintenance, or operation of the revenue bond project or projects to be financed and, in addition, may contain provisions which shall be a part of the contract with the holders of such issue of revenue bonds, as to:

(a) Pledging all or any part of revenues received or to be received, and leases or agreements to secure the payment of such issue of revenue bonds.

(b) Rates, fees, rentals, or other charges to be established, maintained, and collected, and the use and disposition of revenues, gifts, and funds received or to be received.

(c) The setting aside of reserves or retirement funds and the regulation and disposition thereof.

(d) The custody, collection, securing, investment, and payment of any monies held in trust or otherwise for the payment of revenue bonds or in any way to secure the payment of revenue bonds, including the establishment and maintenance of construction, revenue, reserve, or other funds as trust funds.

(e) Limitations or restrictions on the purposes to which the proceeds of sale of any revenue bonds then or thereafter to be issued may be applied.

(f) Limitations or restrictions on the issuance of additional revenue bonds; the terms upon which additional revenue bonds may be issued and secured; and the refunding of outstanding or other revenue bonds.

(g) Vesting in one or more trustees or fiscal agents such property, rights, powers, and duties in trust as the authority may determine.

(h) The acquisition and disposition of property for revenue bond projects.

(i) The rights and remedies available to the bondholders in the event of default.

(j) Provisions for insurance and for accounting reports and the inspection and audit thereof.

(k) The replacement of mutilated, destroyed, stolen, or lost revenue bonds.

(l) Any other matters of like or different character which in any way affect the security or protection of the revenue bonds.

(5) Lien and certain details of revenue bonds.

(a) All revenue bonds issued pursuant to a resolution or trust agreement hereunder shall be equally and ratably secured by a pledge, charge, and lien upon revenues provided for in the resolution or trust agreement, without priority by reason of number, or of dates of bonds, execution, or delivery, except that the authority may provide in the resolution or trust agreement that revenue bonds issued pursuant thereto shall, to the extent and in the manner prescribed in such resolution or trust agreement, be subordinate and junior in standing, with respect to the payment of principal and interest and the security thereof, to any other revenue bonds. Any pledge made by the authority pursuant to this Paragraph shall be valid and binding from the time when the pledge is made. The revenues, securities, and other monies so pledged and then held or thereafter received by the authority or any fiduciary shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authority, whether or not such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the official minutes of the authority and of the State Bond Commission.

(b) The revenue bonds shall be of such series, bear such date or dates, be serial or term bonds, mature at such time or times, bear interest at such rate or rates payable on such date or dates, be in such denominations, be in such form, either coupon or fully registered without coupons, carry such registration and exchangeability privilege, be payable in such medium of payment and at such place or places, be subject to such terms of redemption, and be entitled to such priorities on the revenues of the authority as the resolution or trust agreement authorizing or securing such bonds may provide.

(6) Sale of revenue bonds. The revenue bonds shall be sold by the authority with the approval of the State Bond Commission in such manner and at such prices, at public or private sale, as the authority may determine. If the authority determines to sell the bonds at public sale, notice of such sale upon sealed proposals shall be published at least once not less than seven days prior to the date of such sale in a publication carrying municipal bond notices and devoted primarily to financial news or to the subject of state and municipal bonds, published in the city of New York, New York, and in a newspaper of general circulation published in either the city of New Orleans or the city of Baton Rouge, Louisiana.

(7) Execution of revenue bonds. The revenue bonds and coupons attached thereto shall be executed in the name of the authority by the manual or facsimile signatures of such official or officials as may be designated in the resolution or trust agreement authorizing their issuance. If

any officer whose manual or facsimile signature appears on any revenue bond or coupon ceases to be such officer before the delivery of such bonds, such signature nevertheless shall be valid and sufficient for all purposes as if he had remained in office until such delivery. The resolution or trust agreement may provide for authentication of the bonds by the trustee or fiscal agent thereunder.

(8) Temporary revenue bonds. Pending the preparation of definitive revenue bonds, the authority may issue interim receipts or temporary revenue bonds, with or without coupons, exchangeable for definitive revenue bonds when such bonds have been executed and are available for delivery.

(9) Nonliability of officers. No member of the board or of the authority and no officer or member of the State Bond Commission or any person executing such revenue bonds shall be liable personally on such bonds.

(10) Purchase of revenue bonds. The authority shall have power to purchase its revenue bonds out of any funds available therefor under the resolution or trust agreement authorizing or securing such bonds. It may hold, cancel, or resell such bonds, subject to and in accordance with agreements with holders of its revenue bonds.

(11) Negotiability of revenue bonds. All revenue bonds and interest coupons appertaining thereto issued pursuant to this Section shall be and are hereby made negotiable instruments within the meaning of and for all of the purposes of the Uniform Commercial Code of Louisiana, subject only to the provisions of the revenue bonds for registration.

(12) Tax exemption and eligibility for investment. All revenue bonds and the income therefrom shall be exempt from all taxation by this state or any political subdivision thereof, except estate or gift taxes and taxes on transfers. The revenue bonds shall be legal and authorized investments for banks, savings banks, insurance companies, homestead and building and loan associations, trustees, and other fiduciaries and may be used for deposit with any officer, board, municipality, or other political subdivision of the state of Louisiana, in any case where, by present or future laws, deposit or security is required.

(13) Remedies of bondholders. The holders of any revenue bonds issued hereunder shall have such rights and remedies as may be provided in the resolution or trust agreement authorizing the issuance of the revenue bonds, including but not by way of limitation, acceleration of payment, appointment of a trustee for bondholders, appointment of a receiver for the revenue bond project financed with the proceeds of the revenue bonds or the revenues from such project, and any other available civil action to compel compliance with the terms and provisions of the revenue bonds and the resolution or trust agreement.

(14) Limited liability of authority and state. The revenue bonds shall be limited obligations of the authority. The principal of and interest on the revenue bonds shall not be payable from the general funds of the authority, nor shall they constitute a pledge, charge, lien, or encumbrance upon any of its property or upon any of its income, receipts, or revenues except the revenues, agreements, and funds pledged under the resolution or trust agreement authorizing such bonds. Neither the credit nor the taxing power of the state shall be pledged for the payment of such principal or interest, and no holder of revenue bonds shall have the right to compel the exercise of the taxing power by the state or the forfeiture of its property in connection with any default thereon. Every revenue bond shall recite in substance that the principal of and interest on such bond is payable solely from the revenues pledged to its payment and that the authority is not obligated to pay such principal or interest except from such revenues. The face of each interest coupon shall bear a statement to the effect that such coupon is payable solely from

certain revenues as set forth in the bond to which such coupon pertains. The revenue bonds issued under the provisions of this Section shall not constitute a debt of this state, and the state shall not be liable thereon.

(15) Proceeds and revenues to be deposited in separate funds. Subject to agreements with the holders of revenue bonds, all proceeds of revenue bonds and all revenue pledged under a resolution or trust agreement authorizing or securing such bonds shall be set aside as received and shall be deposited and held in trust by a trustee appointed by the authority in a fund or funds separate and apart from all other funds of the authority. Subject to the resolution or trust agreement, the trustee shall hold the same for the benefit of the holders of the bonds for the application and disposition thereof solely to the respective uses and purposes provided in such resolution or trust agreement.

B. Agreement required prior to sale of revenue bonds. Prior to the sale of revenue bonds under this Section, the authority shall either enter into an agreement with a licensee to lease, sublease, or sell the project or projects to such licensee or enter into a loan or other financing agreement with the licensee providing that the licensee will construct, operate, and maintain the revenue bond project or projects. Any such agreement shall set forth the rights, duties, and obligations of the parties thereto; provide for the completion of the revenue bond project or projects from bond proceeds or other sources; provide that neither the state nor the authority shall have any liability or responsibility whatsoever for any loss or damage arising out of the acquisition, construction, operation, and maintenance of such project or projects; and also shall provide for the payment to the authority of such rentals, installment payments, or other monies as will be sufficient to pay the principal of and interest on the revenue bonds issued to finance the revenue bond project or projects and build up and maintain any reserves deemed advisable in connection therewith. This agreement shall be made upon such other terms and conditions and for such time as may be determined by the authority and may contain provisions authorizing the sale, resale, lease, sublease, or purchase of the entire revenue bond project, or any portion thereof, for such consideration and upon such terms and conditions as the authority may determine.

C. Construction of Section. The powers and rights conferred by this Section shall be in addition and supplemental to the powers and rights conferred by any other general or special law. This Section does and shall be construed to provide a complete and additional method for the doing of the things authorized thereby. The State Bond Commission is vested with and is hereby granted the right, power, and authority to do, perform, and exercise for and on behalf of the authority and its board of commissioners, all acts and things required to be done and performed in connection with the authorization and issuance of revenue bonds under this Section.

D. Prohibition against pledge of full faith and credit of state. Notwithstanding any other provisions of this Section, the state of Louisiana shall not pledge its full faith and credit to the payment of any obligations under the terms of any lease entered into by it under this Section.

§3504. Issuance and transfer of licenses

A. No person shall construct or operate, or cause to be constructed or operated, terminal facilities after July 1, 2008, within the jurisdiction of the authority without first obtaining a license, the transfer of any license granted to the authority, or other appropriate authorization from the authority.

B. A license shall be issued, any license granted to the authority shall be transferred, or other appropriate authorization granted, only if the authority finds that the applicant or transferee is qualified, and that the facilities or operations conform to the provisions of this Chapter and the rules and regulations of the authority and will be consistent with the public interest declared in this Chapter. Any license so issued or transferred or other appropriate authorization shall be subject to and contain such reasonable conditions as necessary to carry out the purposes of this Chapter.

C. The authority shall establish such other qualifications for applicants or transferees, which may include evidence of financial responsibility or performance bonds, as will ensure an applicant's or transferee's ability to comply with this Chapter and the rules and regulations of the authority.

D. The authority shall establish the procedures for submission of applications for the issuance of licenses, the transfer of any license granted to the authority, or the issuance of other appropriate authorization, and shall determine what information must be submitted by the applicant. The authority may impose reasonable filing fees and may require the applicant to reimburse the authority for all expenses incurred in processing the application.

E. The authority shall determine the length of time during which a license shall be valid, and the conditions upon which it may be revoked. The transfer by the authority of any of its rights under a license, certificate, permit, or authorization granted to the authority shall be for the term specified in the original authorization to the authority. Licenses may be revoked, suspended, annulled, or withdrawn in accordance with the procedures established by the authority.

F. Rules, regulations, and procedures pursuant to the provisions of this Section shall be adopted and promulgated, but shall be subject to prior approval by the House and Senate committees on transportation, highways, and public works.

§3505. Remedies and enforcement

In addition to all other rights herein granted, the authority and the courts shall have the power to assure compliance with the purposes of this Chapter as follows:

(1) If the authority's board of commissioners or executive director has reasonable cause to believe that there exists a violation of this Chapter or of the authority's rules and regulations, which could result in irreparable injury to the authority's operations, the environment, or the public interest, the authority may petition a court of competent jurisdiction for appropriate mandatory, injunctive, or other relief pending final adjudication of such matters.

(2) The authority may issue such orders as the public interest and equities of the case may require, and as may be necessary to effectuate the purposes of this Chapter, including but not limited to cease and desist orders, revocation of or other appropriate action affecting licenses issued by the authority, and such affirmative action as may be appropriate.

(3) In the event that the authority should determine that any order made by it, and not then the subject of judicial review, is being violated, the authority may institute a civil action in any court of competent jurisdiction, for enforcement of the authority's order. The enforcement proceeding shall be confined to the record before the authority. The court may enforce, remand, reverse, or modify the order of the authority.

Acts 2008, No. 699, §1, eff. July 1, 2008.

§3506. Coordination and cooperation

A. It is the policy of this Chapter that the authority development program be pursued so that there is full coordination and cooperation between agencies and groups that have complementing or overlapping interests with the authority. It is not the policy of this Chapter that the authority development program be pursued independently and with a view toward narrow, short-term interests.

B. The board of commissioners shall take affirmative steps to ensure that the authority development program develops programs for, or is coordinated into the planning programs of other modes of transportation, to include rail, road, waterway, air, and pipeline, so that there is a long-term and orderly pursuit of transportation services in the coastal zone or related to the facility which are interrelated and coordinated so as to achieve the most efficient and economical transportation program that is feasible and that will be least destructive of other values in the state.

C. The board of commissioners shall ensure that the appropriate federal agencies which are required by federal law to plan or regulate transportation facilities or programs are consulted regularly and are fully involved in the authority development program where appropriate.

D. All ships and vessels inward or outward bound to and from the authority's facilities shall have a state commissioned pilot on board from the boarding position three miles off the Southwest Pass Sea Buoy to the terminal location. The pilots whose duty it shall be to pilot all vessels into and out of such facility shall be the Associated Branch Pilots of the Port of New Orleans.
